Microbe Scavenger Hunt

Description

Microbe Scavenger Hunt

The specially formulated gel, which requires no autoclaving or special equipment, makes it easy for students to design experiments that explore the subvisible world around them, collecting and identifying a wide variety of microbes.

Hunt for various kinds of micro organisms - including bacteria, fungi, and protists, in water, air, soil and even food, employing a ready-to-use growth media.

The investigation also includes a dichotomous key to molds, bacteria, and protists; a specially formulated dried Microlife Mix that allows you to explore the diversity of pond organisms; and a guide to appropriate viewing techniques.
